Subject: Western Brass Quintet Performance in Tampa, FL

Dear David:

I am writing today to thank you for having such an amazing brass faculty and for encouraging them to share their talents around the country and world! The Western Brass Quintet performed at the University of South Florida in Tampa last month and it was truly one of the most enjoyable concerts I've attended in a very long time. The level of performing was first-class (EVERY member of the group). The musical "conversations" between the players were a real joy to witness. The choice of repertoire was excellent. In all truthfulness, I am at a loss for anything to write that isn't simply unvarnished praise!

The group also volunteered their time to work with our students (the amazing Deanna Swoboda did double duty by also giving a fantastic master class for my tuba and euphonium students). All of the students I spoke with after these classes were clearly inspired and motivated.

Please relay my thanks to the members of the group. I am sure you are very proud of them. You have a real gem in these five faculty members!

Sincerely-

Jay
